No. 488 Paint Shaker

Oscillatory Shaking Machine

When the cover is open

■ APPLICATION

The TOYOSEIKI **Paint Shaker** is a vibration type mixer using glass beads for evaluating dispersion in making paints on test bases. Pigments and vehicle are put in a container (Select one from 100 cc, 200 cc, 300 cc, 500 cc) together with glass beads, the vessel is sealed and mounted on a vibrating stand (clamp) which is vibrated (in left and right, back and forth directions) to cause whirl-flow.

■ SPECIFICATIONS

Container capacity	Select one of the following: <ul style="list-style-type: none">■ 500cc x 2■ 300cc x 3■ 200cc x 4■ 100cc x 4
Motor	200W
Vibration speed	Select one of the following <ul style="list-style-type: none">■ 750cpm (Conforms to JIS K 5101)■ 800cpm (Option)
Timer	1 to 30 minutes
Safety cover	Provided as standard
Power requirement	Single-phase, AC100V, 1kVA Select either 50Hz or 60Hz
Dimensions	Approx. W700 x D800 x H1270mm
Weight	Approx. 100kg
Related standard	JIS K 5101-1-2

■ OPTION

	Name	Model
1	Glass beads (Ø3mm, 1kg)
