

No.522 Stick Maker, model PR1

APPLICATION

Stick Maker compresses preliminarily the sample like plastic flake or powder by the low temperature so it can be charged easily in a short time and helps get data steady.

SPECIFICATIONS

Temperature range	100~250°C
Temperature distribution	±0.5°C (Effective: within 70mm)
Compression force	Approx. 15MPa
Specimen extrusion pressure	Approx. 25MPa
Cylinder internal diameter	Ø9.55mm
Power supply	Single-phase, AC100V, 50/60Hz, 1kVA
Compressed air supply	0.6MPa
Dimensions	W360 x D450 x H967mm
Net Weight	Approx. 65kg
